RE: Reference for Clark Corporation of East Peoria

FR: Dr Jack Walz

731 Sabrina Drive

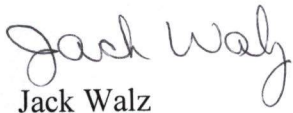

East Peoria, IL 61611

Dear Sirs,

I have personally contracted with Clark Corporation on two separate remodeling/make ready commercial projects. Each project approximated \$100,000.00 in construction costs. I worked closely with Galyn Clark on both projects. Galyn assisted in the design work, selection of construction materials as well as the construction work itself. I found Galyn to be honest, timely, and provided quality work. His bids were competitive and he would work with me to reduce costs when needed. He fulfilled his contracts with me essentially on time and within budgeted estimates. He cleaned up construction waste and followed up on punch list items in a timely manner. His subcontractors showed up when needed and provided knowledgeable quality work. The Clark Corporation worked within city and county ordinance guidelines and provided necessary permits and insurance documentation.

In summary, based upon my experience with Clark Corporation I would not hesitate to use them in the future and trust their services.

Sincerely,

Jack Walz
