Re: Quizno's Approved General Contractor List

Congratulations! Your company has been approved and placed on the Quizno's Approved General Contractor List for the construction of our projected new stores. It is anticipated that Quizno's will build 200 new stores nationwide over the next six months in 2001, with another 700 stores projected opening in 2002.

I have enclosed the Quizno's Corporation eastern and western real estate list for your use in gaining information on new store construction. Contact can be made directly to the Area Directors to express your interest in the upcoming projected stores construction dates and getting on the bid list.

Additional information can be found on the web page <http://www.quiznos.com/>. It should be noted that all the Area Directors listed have a copy of the approved general contractor list.

As a guide to the web page, click on Real Estate and scroll down to the bottom of the page for direct links to all Signage Criteria and photos of completed stores.

Regards,
